

## Shivam Bole

Full Stack Developer (MERN)

+919637888120 ◇ [shivamofficial285@gmail.com](mailto:shivamofficial285@gmail.com) ◇ [Github](#) ◇

[LinkedIn](#) ◇ Pune, Maharashtra, India

### SUMMARY

**Full Stack MERN Developer** with hands-on experience in building responsive web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in REST APIs, third-party integrations, authentication, and Git. Experienced in frontend design, backend logic, and deploying scalable projects. Strong knowledge of JavaScript, HTML, CSS, and modern tools like Redux, and GitHub. Passionate about solving real-world problems through clean, efficient, and user-focused web development.

### EXPERIENCE

Full Stack Developer,  
Arohi, Software,  
Ahmadnagar, Pune

10 Sep 2024 – 10  
Feb 2025 Pune,  
India

- E-Commerce websites (Lead Developer) - [LINK](#)
  - Contributed to a full-scale eCommerce website as part of a real-time company project.
  - Learned how to plan, break down tasks, and manage project timelines efficiently for faster delivery.
  - Gained hands-on experience in team collaboration, understanding how to delegate and work in modules.
  - Integrated third-party services such as: Payment gateways, Google Authentication, Delivery app APIs
  - Worked on both frontend and backend, enhancing understanding of full-stack architecture.
  - Learned the importance of code quality, version control (Git), and clear communication.
  - Understood how to handle real-world requirements, testing, and deployment processes.
  - Improved confidence in working on production-level codebases and meeting client expectations.
- Hospital Appointment Management Website (Lead Developer) - [LINK](#)

I led the development of a full-stack web application for a multi-specialty hospital that streamlines appointment management and doctor coordination.

  - Doctor Portal: Each doctor has a dedicated account where they can view and manage their appointments — filtered by the current day, month, or year.
  - Admin Panel: A powerful dashboard for hospital staff to manage doctor profiles, patient records, appointment data, advertisements, and new registrations.
  - User Booking System: Patients can book appointments with any doctor based on available time slots, ensuring smooth scheduling and reduced conflicts.
  - Built with the MERN stack, the platform offers a seamless experience for doctors, admins, and patients alike.

Full Stack Developer  
Intern,  
Arohi Software,  
Ahmadnagar, Pune

24 April 2024 –  
24 July 2024  
Pune, India
