

## Shivam Bole

Full Stack Developer (MERN)

+919637888120 ◇ [shivamofficial285@gmail.com](mailto:shivamofficial285@gmail.com) ◇ [Github](#)

### SUMMARY

◇ [LinkedIn](#) ◇ Pune, Maharashtra, India

**Full Stack MERN Developer** with hands-on experience in building responsive web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in REST APIs, third-party integrations, authentication, and Git. Experienced in front-end design, backend logic, and deploying scalable projects. Strong knowledge of JavaScript, HTML, CSS, and modern tools like Redux, and GitHub. Passionate about solving real-world problems through clean, efficient, and user-focused web development.

### EXPERIENCE

Full Stack Developer,  
Arohi, Software,  
Ahmednagar, Pune

10 Sep 2024 – 10  
Feb 2025 Pune,  
India

- ❖ E-Commerce websites (Lead Developer) - <https://bazaarbee.vercel.app>
  - Contributed to the development of a full-scale eCommerce web application using the MERN stack (MongoDB, Express.js, React.js, Node.js) in a production environment.
  - Planned and executed development tasks by breaking requirements into 5+ functional modules, helping ensure on-time feature delivery.
  - Collaborated with a cross-functional team of 3–5 members, following modular development and version control workflows using Git.
  - Integrated 3+ third-party services, including payment gateways, Google Authentication (OAuth), and delivery service APIs using REST APIs.
  - Developed and maintained frontend and backend components, improving overall full-stack application stability and performance.
  - Followed clean code practices, performed code reviews, and used Git/GitHub for source control and collaboration.
  - Implemented testing and deployment processes, supporting end-to-end application delivery from development to production.
  - Worked on production-level codebases, resolving bugs and enhancements to meet client and business requirements.
- ❖ Hospital Appointment Management Website (Lead Developer) - <https://sai-hospitalcom.vercel.app>
  - Led the development of a full-stack hospital appointment management system using the MERN stack (MongoDB, Express.js, React.js, Node.js) for a multi-specialty hospital.
  - Designed and implemented a doctor Portal with secure authentication, enabling 10+ doctors to view and manage appointments filtered by day, month, and year.
  - Built an Admin Panel to manage doctor profiles, patient records, appointment data, advertisements, and new registrations, improving administrative efficiency.
  - Developed a User Appointment Booking System that allows patients to book doctors based on real-time availability, reducing scheduling conflicts and manual coordination.
  - Implemented role-based access control for doctors, admins, and users to ensure secure data access and smooth workflows.
  - Delivered a production-ready web application with a responsive UI, improving usability for doctors, administrators, and patients.

Full Stack Developer  
Intern, Arohi Software,  
Ahmednagar, Pune

10 Sep 2024 – 10 Feb  
2025 Pune, India

- Worked on the development of an inventory management web application, handling core features and data workflows.
- Built two business and networking-based websites, contributing to frontend functionality and overall site structure

PROJECTS

- Full working E-commerce website using HTML, CSS, and JavaScript. - <https://musiera.netlify.app>
